Width x Depth x Height. Cane fronts have recessed plywood backing. Mirror and accessories excluded; custom details follow your written order.

Before first use

- Check the finish, drawers, steel stand and fittings against your order on arrival.
- Unpack carefully, keeping blades away from veneer and cane. Follow the setup and wall-anchoring guidance on page 3.
- Keep drawers empty until the dresser is stable, its connections are secure and the anti-tip restraint has been installed.

CARE & MAINTENANCE

Care for your Orion dresser

Gentle cleaning protects the veneer, timber frames and natural cane. Follow any additional guidance supplied for your confirmed custom finish.

Wood & veneer	Dust with a soft, dry cloth. For light marks, use a barely damp cloth and dry promptly. Avoid abrasives, solvents and unapproved furniture polish.
Natural cane	Use a soft, dry brush to remove dust from the weave. Do not soak, spray, steam-clean or pull the strands. Avoid pressure on the cane inserts.
Spills & surfaces	Blot spills promptly. Use coasters and felt pads beneath objects. Keep hot items off the top, and lift objects rather than sliding them across the finish.
Steel & knobs	Wipe the coated stand and metal knobs with a soft cloth; dry after any damp cleaning. Avoid abrasive pads, metal polish and harsh chemicals.
Room conditions	Keep indoors, away from damp walls, wet floors, heaters and prolonged direct sunlight. Leave space for air to circulate around the cabinet.
Drawer care	Open gently using both knobs, one drawer at a time. Distribute belongings evenly and avoid overfilling. Stop if a drawer catches; do not force or oil unfamiliar runners.

PLACEMENT & SUPPORT

Set up your Orion dresser

Use a firm, level indoor floor and leave room to open the drawers. Wall anchoring is required before loading or normal use.

Setup and safe use

- Follow your confirmed delivery arrangement. If the stand or knobs arrive separately, use ROCO's order-specific fittings and instructions with a competent installer.
- Move with at least two capable adults, keeping drawers empty and closed. Support the cabinet underneath; never lift by knobs, cane or drawer fronts. Do not drag.
- All feet must bear securely on the floor. Have any rocking corrected; do not assume the feet are adjustable.
- Have an installer fit a suitable anti-tip restraint at ROCO-approved structural mounting points, never only the thin rear panel. Use wall-specific fixings and check for concealed pipes and cables before drilling.
- After anchoring, check one empty drawer at a time. Use both knobs. Keep heavier items low and open only one drawer at a time. Never allow climbing, sitting or standing on the dresser or drawers.
- Stop use if the stand or fittings move, cane breaks or drawers catch. Contact ROCO; do not force, dismantle or modify the dresser.

Warranty guidance

Eligible manufacturing defects carry **12 months** for the mixed-material cabinet, structural assembly and hardware, and **6 months** for indoor finish and veneer adhesion. Natural cane coverage follows the written terms confirmed for your order.

Coverage normally starts at delivery. Ordinary wear, natural variation and damage from misuse, overloading, moisture or unsuitable cleaning are excluded. Approved claims follow a repair-first approach; the applicable policy and written order terms govern.

ROCO CUSTOMER CARE

Need assistance?

Contact ROCO if the drawers, cane fronts, steel stand or finish need attention. Your order details and clear photographs help us assess the concern.

When to contact us

- Report visible transit damage or wrong or missing items within 48 hours of delivery.
- Report installation, levelling, alignment or missing fittings within 7 days.
- Report hidden manufacturing defects within the applicable warranty period. These initial reporting windows do not shorten that period.

What to share

Send your order number, delivery location and finish/SKU: **OCD-372-BRN** for Brown or **OCD-372-BLK** for Black. Include full-product and close-up photographs, plus video for drawer movement, noise or instability. Contact ROCO before repairs or returns.
