Before First Use

- Check the delivered set and selected finish. The mattress is sold separately.
- Confirm the mattress opening and wide headboard clearance before assembly.
- Test all four drawers after assembly. Report visible delivery damage promptly.

Everyday Use

- Open one storage drawer at a time; do not sit or stand on an open drawer.
- Avoid placing weight on headboard grooves or unsupported bed edges.

CARE & MAINTENANCE

Keep The Fine Lines Looking Their Best

Caldrin combines a fluted oak-veneered surface with four sliding drawers. Gentle cleaning and clear drawer paths help protect both the finish and the moving parts.

FLUTED HEADBOARD	Brush dust along each vertical groove with soft bristles. Never scrape or pick at the lines.
OAK VENEER	Dust with microfiber. For marks, use a barely damp cloth and dry the surface straight away.
PANEL EDGES	Keep moisture and harsh cleaners away from routed MDF, veneer seams and panel edges.
SHEESHAM FRAME	Keep the supporting timber dry; report unusual movement or looseness at joints.
FOUR DRAWERS	Pull each drawer straight. Keep both sides clear and avoid overloading stored items.
SOFT-CLOSE SLIDES	Guide drawers gently; never force a sticking runner or tamper with its mechanism.
SIDE TABLES & MOVING	Use coasters. Before relocation, empty drawers, remove the mattress and lift the frame.

PLACEMENT & SUPPORT

Room For The Headboard. Space For Storage.

Caldrin's extended fluted headboard is wider than its bed frame. Leave room for all four drawers to open, and confirm mattress fit and clearance against your approved order.

Important Precautions

- Position the bed on a level, dry floor with clear access to both drawer sides.
- Keep the oak-veneered headboard away from damp walls, heaters and direct sunlight.
- Do not let children climb the headboard or drawers. Stop using damaged fittings.

Warranty Guidance

Qualifying manufacturing defects are reviewed under the ROCO Confidence Warranty and the written terms confirmed with your order.

FRAME	Eligible structural defects affecting the solid-Sheesham supporting frame or fixed joints.
PANELS & RUNNERS	Qualifying fluted-panel fitting, plywood assembly and drawer-runner faults.
OAK FINISH	Verified premature veneer lifting or protective-finish adhesion defects.

Routine wear, scratches, moisture damage, forced drawers and unauthorised repairs are excluded.

ROCO CUSTOMER CARE

Need Assistance?

For concerns with Caldrin's fluted headboard, four drawers, frame or finish, ROCO can review photographs and the details of your order.

When To Contact Us

- Report visible delivery damage, missing fittings or a different finish promptly.
- Contact ROCO if a drawer catches, a runner misaligns or a fitted joint loosens.
- Raise finish or structural workmanship concerns within your applicable warranty.

What To Share

Send your order number, bed size and finish, a full-view photograph and close-ups of the issue. Include a short video if a drawer fails to slide.
