OWNER'S MANUAL

Stalwart File Cabinet

Organised office storage with furniture-led detailing. Regular care helps preserve the finish, alignment and smooth drawer movement.

Product at a glance

OVERALL SIZE 35 in W x 21 in D x 29 in H 89 x 53 x 74 cm	**DRAWER INTERIOR** 30 in W x 17 in D x 9.5 in H 76 x 43 x 24 cm
STORAGE 2 deep lateral drawers	**CONSTRUCTION** Oak-led mixed construction
FINISHES Brown Wash / SeaDrift	**ASSEMBLY** As confirmed on your order

Before first use

- Remove packaging carefully. Keep blades and sharp tools away from finished wood, drawer fronts and hardware.
- Place the cabinet on a dry, level indoor surface with enough clearance for the drawers to open fully. Check stability before loading.
- Inspect the finish, drawer alignment, knobs and visible condition. Report visible delivery concerns within 48 hours and installation or alignment concerns within 7 days where applicable.

Everyday use

- Open one drawer at a time. Load files evenly and avoid overfilling, forcing drawers closed or using an open drawer as a support.
- Do not sit, stand or climb on the cabinet. Before moving it, empty and close the drawers; use two people and lift from the base rather than dragging.

CARE & MAINTENANCE

Keep the finish and drawers working well

The Stalwart combines Oak detailing, Oak veneer, plywood and selected engineered components. Keep surfaces dry and use gentle care throughout.

Oak & veneer	Dust with a soft, dry microfiber cloth. For light marks, use a barely damp cloth and dry immediately. Follow the grain where practical.
Spills	Wipe spills promptly. Do not allow standing moisture around panel edges, drawer fronts, joints or veneered surfaces.
Cleaning	Avoid bleach, acetone, thinner, abrasive cleaners, strong chemical polish, excessive water and steam cleaning. Contact ROCO if treatment is uncertain.
Drawers & runners	Load evenly and keep runner areas free of debris. Never force a drawer that binds or feels uneven. Do not lubricate hardware unless ROCO advises it.
Hardware & stability	Check knobs and fittings periodically. Keep the cabinet level and stable. Do not drill, alter or dismantle the cabinet without ROCO guidance.

PLACEMENT & SUPPORT

Use it safely. Keep storage balanced.

The Stalwart File Cabinet is intended for indoor residential, study and office use in a dry, well-ventilated setting.

Important precautions

- Keep the cabinet away from damp walls, water sources, heaters, open flames and prolonged direct sunlight.
- Place it on a level surface with full drawer clearance. Open one drawer at a time and keep heavier contents in the lower drawer where practical.
- Do not overload drawers, sit or stand on the cabinet, or allow children to climb or use open drawers as steps.
- Do not drill, dismantle, modify the structure or arrange third-party repair without written guidance from ROCO.
- If the cabinet becomes unstable, a drawer binds, or unusual movement or persistent noise develops, stop using it and contact ROCO for assessment.

Warranty guidance

Your cabinet is supported by the ROCO Confidence Warranty and any product-specific terms confirmed on the product page, quotation, invoice or written order confirmation. For this mixed-construction cabinet, eligible plywood or engineered structural assembly and standard hardware defects are normally covered for 12 months; qualifying indoor veneer or applied-finish adhesion defects are normally covered for 6 months. Product-specific written terms take priority.

ROCO normally begins with assessment, adjustment, repair or replacement of the affected component. Normal wear, moisture damage, overloading, harsh cleaning, accidental damage, misuse and unauthorised repair or modification are not normally manufacturing defects. Report visible delivery concerns within 48 hours and installation, levelling, alignment or missing-fitting concerns within 7 days where applicable.

ROCO CUSTOMER CARE

Need assistance?

Contact us early if something does not look, feel or perform as expected. Clear information helps us assess the concern more quickly.

When to contact us

- Report visible transit damage, a wrong item or a major visible delivery concern within 48 hours of delivery.
- Report initial drawer alignment, loose hardware, missing fittings or setup concerns within 7 days where applicable.
- Report a hidden manufacturing, material or workmanship concern during the warranty period applicable to the affected component and your order.

What to share

Please share your order or invoice number, the product name, clear photographs of the complete cabinet and the affected area, and a short video if the concern involves drawer movement, alignment or noise.
