

OWNER'S MANUAL | SKU SGDC-451

Stalwart Glass Door Cabinet

Compact glass-front storage with a shallow drawer and adjustable shelving, designed for organised everyday use across living, dining and work spaces.

Product at a glance

OVERALL SIZE 35 in W x 22 in D x 31 in H 89 x 56 x 79 cm	CABINET INTERIOR 20.5 in W x 14.5 in H 52 x 37 cm
FINISH OPTIONS Brown Wash / SeaDrift	ASSEMBLY Delivered fully assembled
CONSTRUCTION Oak detailing, plywood, Oak veneer and selected MDF	STORAGE & GLASS 1 top drawer, adjustable shelf and tempered-glass doors

Before first use

- Remove packaging carefully. Keep blades and sharp tools away from the glass, finished edges and cabinet surfaces.
- Place the cabinet on a dry, level indoor surface and confirm that the doors, drawer, shelf and levelers are secure before loading.

Everyday use

- Use the knobs when opening the drawer and doors. Do not sit, stand, climb or lean body weight on the cabinet or open doors.

CARE & MAINTENANCE

Care that respects every surface

The Stalwart combines Oak detailing, veneer, engineered panels, tempered glass and metal hardware. Gentle cleaning and dry placement will help keep each surface performing as intended.

Oak & veneer	Dust with a soft, dry microfiber cloth. For light marks, use a barely damp cloth and dry immediately. Keep edges and joints dry.
Glass doors	Use a soft lint-free cloth. Apply glass cleaner to the cloth rather than spraying directly onto the doors, frames or hinges.
Spills & cleaning	Wipe spills promptly. Avoid bleach, abrasives, solvents, acetone, thinner, strong chemical polish and excessive water.
Drawer & doors	Open and close gently. Keep runners and hinges free from dust, and do not force a drawer or door that has become misaligned.
Shelf, hardware & cables	Keep the adjustable shelf seated on its supports. Check knobs, hinges, runners and levelers periodically, and keep the rear cable opening clear.

PLACEMENT & SUPPORT

Set it level. Keep it working smoothly.

Stalwart is intended for dry indoor residential use. Stable placement helps protect cabinet alignment, glass doors, drawer movement and finished surfaces.

Important precautions

- Keep the cabinet away from damp walls, water sources, heaters, open flames and prolonged direct sunlight.
- Do not allow climbing on the cabinet, drawer or doors. Keep the tempered glass clear of impact from hard or sharp objects.
- Move the cabinet empty with two adults, lifting from the lower structure. Never drag it or lift by the top, doors, drawer or knobs.
- Do not drill, refinish, dismantle or modify hardware without ROCO guidance. If the cabinet becomes unstable or glass is damaged, stop using the affected part and contact ROCO.

Warranty guidance

Under the current ROCO Confidence Warranty, qualifying plywood/MDF structural workmanship and standard hardware are normally covered for 12 months. Eligible indoor veneer, laminate and applied-finish adhesion defects are normally covered for 6 months. Visible glass damage or defects should be reported within 48 hours of delivery; initial levelling, alignment or missing-fitting concerns should be reported within 7 days.

ROCO follows a repair-first, affected-component-first approach. Normal wear, natural wood or veneer variation, moisture damage, harsh cleaning, misuse, overloading and unauthorised modification are not normally manufacturing defects. Product-specific written order terms take precedence where applicable.

ROCO CUSTOMER CARE

Need assistance?

Contact ROCO early if something does not look or operate as expected. Clear photos and order details help us assess the concern more efficiently.

When to contact us

- Report visible transit damage, a wrong item, damaged glass or another major delivery concern within 48 hours of delivery.
- Report initial levelling, alignment or missing-fitting concerns within 7 days where applicable.
- Contact ROCO if a door, drawer, hinge, shelf, leveler or structural section becomes unstable or stops operating correctly.
- Report hidden manufacturing, material or workmanship concerns during the warranty period applicable to your order.

What to share

Provide your order or invoice number, the product name, clear photographs of the complete cabinet and the affected area, plus a short video if the concern involves movement, alignment or noise.
