

OWNER'S MANUAL | SKU TCW-455

Tressel Cane Wardrobe

A modular wardrobe defined by matte-black framing and arched natural cane fronts. Correct placement and careful handling help protect its tall doors, finish and woven panels.

Product at a glance

2-DOOR SIZE 100 cm W x 62 cm D x 200 cm H 39.4 in W x 24.4 in D x 78.7 in H	3-DOOR SIZE 150 cm W x 62 cm D x 200 cm H 59.1 in W x 24.4 in D x 78.7 in H
4-DOOR SIZE 200 cm W x 62 cm D x 200 cm H 78.7 in W x 24.4 in D x 78.7 in H	ASSEMBLY Delivered fully assembled
CONSTRUCTION Plywood carcass with solid Sheesham door framing	DOOR FRONTS Natural cane webbing with painted MDF lower panels
BASE Fixed reinforced plinth; no separate legs	FINISH Matte black with natural cane

Order-specific details: internal hanging and shelf arrangements, approved finish choices and any custom changes follow the written ROCO order confirmation for your wardrobe.

Before first use

- Check the delivered size and access route before positioning the wardrobe in its final location.
- Remove packaging carefully. Keep blades and sharp tools away from cane panels, painted edges and handles.
- Place on a dry, level indoor floor and arrange suitable anti-tip anchoring for the wall construction.

CARE & MAINTENANCE

Protect the contrast

Tressel combines natural cane with a dark painted finish. Dry, controlled cleaning helps both surfaces age more evenly.

Cane panels	Lift dust from the weave with a soft brush or low-suction vacuum attachment. For light marks, use a barely damp cloth and dry promptly. Do not soak, scrub or pull at the cane.
Matte-black surfaces	Wipe with a clean, lightly damp microfiber cloth and dry straight away. Avoid polish, bleach, thinner, abrasive sprays and scouring pads that can mark the finish.
Tall doors & hardware	Open and close from the handles without forcing the doors. Keep hinges free from dust and contact ROCO if alignment changes rather than adjusting or lubricating hardware without guidance.
Room conditions	Keep the wardrobe clear of damp walls, leaks and standing water. Normal room ventilation is important, especially in humid weather and for natural cane.
Storage loading	Spread clothing and accessories across the available sections. Do not overload shelves or the hanging rail, and do not use door handles or cane panels as hooks.
Light & heat	Avoid prolonged direct sunlight, heaters, open flames and strong heat sources. Natural cane can develop gradual tone variation with age and light exposure.

PLACEMENT & SUPPORT

Plan the placement

All Tressel sizes are 200 cm high, and the 3-door and 4-door versions are substantially wider. Confirm access and final positioning before delivery.

Important precautions

- Anti-tip anchoring is strongly recommended. Use fixings appropriate for the wall type and installation location.
- Never allow children to climb, hang from or play on the doors. Do not stand or sit on the wardrobe.
- Keep the fixed plinth on a level floor. Do not shim, drill or modify the base without ROCO guidance.
- For relocation, empty the wardrobe first. Do not drag it or lift from the doors, cane panels or handles.
- If dismantling is required for relocation or access, contact ROCO before arranging third-party work.

Warranty guidance

Tressel uses mixed plywood, MDF, solid Sheesham, natural cane and metal hardware. Qualifying plywood/MDF structural assemblies and standard hardware are covered for 12 months; eligible indoor finish defects are covered for 6 months. ROCO normally begins with adjustment, repair or affected-component replacement where appropriate.

Normal wear, natural cane variation, moisture or humidity damage, overloading, impact, unsuitable cleaning and unauthorised alterations are not covered. Product-specific written order terms take precedence where different.

ROCO CUSTOMER CARE

Need assistance?

If a door, finish, panel or fitting does not look or perform as expected, contact ROCO before arranging repair or dismantling.

When to contact us

- Visible transit damage, a wrong or missing item, or another delivery concern should normally be reported within 48 hours.
- Installation, levelling, alignment or missing-fitting concerns should normally be reported within 7 days.
- Hidden manufacturing, structural, finish or hardware concerns can be reported during the applicable warranty period.

What to share

Provide your order or invoice number, product name and size, delivery location, a clear description of the concern, photographs of the complete wardrobe and affected area, and a short video where movement, alignment or noise is involved.
