Before first use

- Remove packaging carefully. Keep blades and sharp tools away from the chevron fronts, drawer edges and metal finish.
- Place the wardrobe on a dry, level indoor surface. Check doorway, lift, staircase and corridor clearance before delivery.

Everyday use

- Use the handles to open doors and drawers. Store clothing evenly and keep the rail, shelf and drawers within normal household use.
- Do not climb, hang from the doors or handles, or place body weight on the drawers. Move only when empty; never drag.

CARE & MAINTENANCE

Care that preserves the chevron finish

Brunel is intended for dry indoor use. Gentle cleaning and sensible loading help protect the oak veneer, drawer hardware and brass-tone metal details.

Chevron veneer

Dust with a soft microfiber cloth, following the grain direction. Avoid hard brushes, abrasive pads and forceful rubbing across the veneer.

Veneered surfaces

For light marks, use a slightly damp cloth and dry immediately. Avoid soaking edges or allowing moisture to remain on the veneered fronts.

Drawers & channels

Use the handles and let the full-extension runners travel naturally. Do not force, overload, oil or adjust the channels unless ROCO advises it.

Metal base & handles

Use a soft dry cloth for routine care. Remove fingerprints gently and avoid abrasive cleaners or metal polishes that may alter the brass-tone finish.

Moisture & placement

Keep the rear, veneer edges and lower structure dry. Leave clearance from persistently damp walls and store only dry garments inside.

PLACEMENT & SUPPORT

Stable placement matters.

The Brunel wardrobe is intended for indoor residential use in a dry, well-ventilated setting.

Important precautions

- Keep the wardrobe away from damp walls, water sources, heaters, open flames and prolonged direct sunlight.
- Arrange suitable anti-tip anchoring for the wall type. Do not allow children to climb, pull on doors or use open drawers as steps.
- Do not drill, dismantle, alter the fixed metal base, or adjust hinges and drawer channels without written guidance from ROCO.
- If the wardrobe becomes unstable or a door, drawer or fitting develops a persistent issue, stop using the affected part and contact ROCO.
- For relocation, empty the wardrobe and use experienced assistance. Lift from the supported base; never drag or lift by doors, drawers or handles.

Warranty guidance

Brunel carries 12-month coverage for qualifying manufactured-wood structural assembly and standard hardware, plus 6 months for eligible indoor veneer and finish defects. Verified issues are assessed through ROCO's repair-first process.

Normal wear, moisture damage, misuse, unsuitable cleaning and unauthorised alterations are excluded. Product- or order-specific written terms apply where confirmed. Report visible delivery concerns within 48 hours and installation or alignment concerns within 7 days.

ROCO CUSTOMER CARE

Need assistance?

Contact us early if something does not look or perform as expected. Clear information helps us assess the concern quickly.

When to contact us

- Report visible transit damage, a wrong item or a major delivery concern within 48 hours.
- Contact ROCO if the wardrobe becomes unstable or develops a persistent door, drawer, hinge, rail, shelf or structural issue.
- Report installation or alignment concerns within 7 days, and hidden manufacturing, material or workmanship concerns during the applicable warranty period.

What to share

Share your order or invoice number, the product name, clear photos of the complete wardrobe and affected area, plus a short video if the concern involves movement, alignment or noise.
