Before first use

- Remove packaging carefully. Keep blades and sharp tools away from the upholstery, tufting and nailhead trim.
- Place the bed on a dry, level indoor surface. Check the upholstery, side tables, legs, headboard and overall stability before use. Report visible delivery concerns within 48 hours and initial installation or alignment concerns within 7 days.

Everyday use

- Use the bed for normal sleeping and sitting. Do not stand, jump or climb on the headboard, wings, frame or side tables.
- When moving the bed, clear the side tables and lift from the lower frame with several people. Never drag the bed or lift it by the headboard, wings, upholstery or nailhead-trimmed edges.

CARE & MAINTENANCE

Simple care for lasting upholstered comfort

The upholstery selected for your order may have its own care requirements. When in doubt, contact ROCO before applying a cleaning or stain-treatment product.

Upholstery	Vacuum gently using a clean upholstery attachment. Work lightly across the headboard, side rails and footboard without pulling at seams or tufting.
Spills	Blot immediately with a clean, colourfast absorbent cloth. Work from the outside inward. Do not rub, scrub or saturate the fabric.
Cleaning	Avoid bleach, acetone, thinner, abrasive cleaners, harsh chemicals and excessive water. Do not use steam cleaning unless ROCO confirms it is suitable.
Tufting	Dust gently around buttons and folds. Do not pull buttons, pick at threads or force objects into the tufted areas.
Nailhead trim	Dust with a soft, dry cloth. Keep moisture and abrasive metal cleaners away from the trim and surrounding upholstery.
Side tables	Dust or vacuum the upholstered surfaces gently. Use coasters under drinks, wipe spills promptly and avoid overloading the drawers.

PLACEMENT & SUPPORT

Use it well.

The Bellmere is intended for indoor residential use in a dry, well-ventilated setting.

Important precautions

- Keep the bed away from damp walls, water sources, heaters, open flames and prolonged direct sunlight. Leave enough clearance around the side tables for normal drawer use.
- Do not allow children to climb on the winged headboard or play on the side tables. Keep pets, sharp objects and rough accessories away from the upholstery.
- Do not drill, modify, reupholster or arrange third-party structural repair without ROCO guidance. If the bed becomes unstable or develops persistent movement or noise, stop use and contact ROCO.

Warranty guidance

The Bellmere Wingback Bed Set is supported by the ROCO Confidence Warranty and the product-specific terms confirmed with your order.

FRAME & JOINERY	Eligible internal structural components and structural joinery may receive coverage of up to 24 months, subject to the construction confirmed with your order.
UPHOLSTERY & HARDWARE	Eligible upholstery workmanship, stitching, standard fittings and side-table hardware may be covered for up to 12 months.
FABRIC	Verified manufacturing or material defects affecting ROCO-supplied upholstery fabric may be covered for up to 6 months.

Normal wear, gradual padding softening, fading, stains, moisture damage, accidental damage, misuse and unauthorised repair are not manufacturing defects. ROCO normally assesses the affected component first.

ROCO CUSTOMER CARE

Need assistance?

Contact us early if something does not look, feel or perform as expected. Clear information helps us assess the concern more quickly.

When to contact us

- Report visible transit damage, a wrong item or a missing major component within 48 hours of delivery.
- Report installation, levelling, alignment, missing fitting or initial side-table operation concerns within 7 days of delivery.
- Contact ROCO if the bed becomes unstable, stitching opens unexpectedly, a side-table drawer becomes difficult to operate, or you notice persistent movement or noise. Hidden manufacturing concerns can be reported during the applicable warranty period.

What to share

Please share your order or invoice number, the product name, selected size and colour, clear photographs of the complete bed and affected area, and a short video if the concern involves movement, noise or drawer operation.
