USE & CARE

Care For Wood, Legs & Bedside Drawers

Kelden combines a solid-wood supporting frame with walnut-veneered panels. Gentle cleaning and careful handling protect the finish and raised structure.

WALNUT VENEER	Dust with a soft microfiber cloth; avoid abrasive pads and rough cloths that may dull the surface.
SHEESHAM FRAME	For marks, use a barely damp cloth and dry the wood immediately. Avoid standing moisture.
PANEL EDGES	Keep water away from veneer joints, headboard edges and drawer fronts.
RAISED FRAME	Do not drag the bed. Lift from the lower supporting structure with help when repositioning.
BEDSIDE DRAWERS	Use the recessed pulls; open straight and avoid excessive loads or pressure on the fronts.
FINISH PROTECTION	Avoid prolonged direct sunlight, strong heat, harsh solvents and abrasive cleaners.

PLACEMENT & SUPPORT

Place It Carefully. Keep It Stable.

Use Kelden indoors on a dry, level floor. Leave room for the bed, both bedside tables and comfortable movement around the furniture.

Important Precautions

- Keep away from damp walls, water, flames, heaters and long periods of direct sunlight.
- Do not stand or climb on the headboard, frame or bedside tables. Avoid impact on the exposed tapered legs.
- Do not drill, refinish or attempt structural repairs without ROCO guidance. Stop use if the bed becomes unstable or develops persistent noise.
