

OWNER'S MANUAL

Nolven Softline Bed Set

Split padded headboard, linen-texture upholstery and slim metal legs give Nolven its light, tailored profile. Correct assembly and routine care help protect the frame, fabric and fittings.

Product at a glance

SIZES King 72 in W x 78 in L x 38 in H Queen 66 in W x 78 in L x 38 in H	CONSTRUCTION Seasoned solid Kikar structural frame Furniture-grade plywood panels
UPHOLSTERY Premium polyester linen-texture fabric ROCO colour selected with order	CUSHIONING Molty high-density foam Padded headboard and frame
SIDE TABLES 2 upholstered two-drawer units 20 in W x 16 in D x 22 in H each	DELIVERY & ASSEMBLY Bed supplied in separate components Assembly required; service not included

Before assembly

- Check all bed components and supplied hardware against your order before starting. Keep packaging until the set is complete.
- Assemble on a dry, level, protected floor with two adults. Keep tools and dusty surfaces away from the upholstery.
- Use the supplied fittings and prepared fixing points only. Do not drill new holes or substitute hardware without ROCO guidance.

Before first use

- After assembly, confirm the bed sits level, all metal legs are stable, and accessible frame fittings are secure before placing the mattress.
- Recheck accessible fittings after the first 7-14 days of use. Tighten only where needed; do not force or overtighten through upholstered sections.

CARE & MAINTENANCE

Care for fabric and fittings

Nolven uses woven polyester upholstery, Molty foam and coated metal legs. Control moisture, friction and uneven loading to keep the set looking clean and sitting correctly.

Woven upholstery	Use low suction with a soft upholstery tool. Work gently with the weave rather than scrubbing across it.
Split headboard	Run a soft nozzle through the centre gap and along panel edges so lint does not settle in the seams.
Fresh spills	Press with a clean white absorbent cloth and allow to air-dry. Do not soak, bleach or steam the fabric.
Metal legs	Wipe the black powder-coated legs dry. Avoid abrasive pads, harsh chemicals and standing moisture.
Bedside drawers	Pull drawers straight and keep loads moderate. Do not sit, stand or lean heavily on the side tables.
Moving the bed	For major moves, dismantle the bed frame first. Lift components; never drag the assembled bed or pull from the headboard.

Fabric care can vary by colour and batch. Follow the upholstery guidance confirmed with your final order.

PLACEMENT & SUPPORT

Set it up well. Keep it steady.

The Nolgen is intended for indoor residential use on a dry, level floor, with enough clearance to move and clean around the raised frame.

Important precautions

- Keep the bed away from damp walls, water sources, heaters, open flames and prolonged direct sunlight.
- Do not stand on the padded rails or footboard, and never use the split headboard as a lifting or pulling point.
- Keep sharp objects, rough buckles and pet claws away from the woven upholstery. Keep the 7 in under-bed clearance free of objects that may strike the legs.
- If the frame loosens, a metal leg shifts, a drawer binds, or unusual movement or noise develops, stop use and contact ROCO before modifying the set.

Warranty guidance

Your Nolgen is supported by the ROCO Confidence Warranty and the product-specific terms confirmed on your product page, quotation, invoice or written order confirmation. Coverage is component-specific: qualifying Kikar structure may receive up to 24 months; plywood sections, Molty foam, upholstery workmanship and bedside-table hardware up to 12 months; and ROCO-supplied linen-texture fabric or coated metal finish up to 6 months, subject to the final order specification.

ROCO normally begins with assessment, adjustment, repair or replacement of the affected component. Normal wear, gradual foam softening, fading, stains, moisture damage, accidental damage, misuse, incorrect assembly, substituted hardware and unauthorised repair are not normally manufacturing defects. Report visible delivery concerns within 48 hours and contact ROCO before attempting repair or modification.

ROCO CUSTOMER CARE

Need assistance?

Contact us early if a component is missing, does not fit correctly, or the bed does not feel stable after assembly. Clear photos and order details help us assess the issue faster.

When to contact us

- Report visible transit damage, a wrong component or a major delivery concern within 48 hours of delivery.
- Stop using the bed if it will not sit level, a leg or frame fitting shifts, a drawer jams, or unusual movement or structural noise develops.
- Report a hidden manufacturing, material or workmanship concern during the warranty period applicable to your order.

What to share

Please share your order or invoice number, the product name, selected size and colour, clear photographs of the complete set and affected area, and a short video if the concern involves movement, fitting or noise. For assembly concerns, include a clear photo of the relevant component and hardware.
