CARE & MAINTENANCE

Care For The Fabric, Frame & Side Tables

Nolven combines woven upholstery, soft headboard padding and moving drawer hardware. A little regular attention helps protect the fabric and its fitted details.

WOVEN UPHOLSTERY	Vacuum gently using a soft upholstery nozzle at low suction. Avoid hard bristles.
HEADBOARD SEAMS	Clean along the centre division and padded edges without tugging or pulling the stitches.
SPILLS & MARKS	Blot promptly using a clean white cloth. Do not rub, saturate or bleach the fabric.
BEDSIDE TABLES	Protect fabric-covered tops from hot cups, liquids and sharp objects. Use a tray or coaster.
METAL LEGS	Wipe lightly and dry. Check accessible bolts occasionally; do not overtighten.
DRAWERS	Open straight and avoid overloading runners. Stop if a drawer begins to catch.
RELOCATION	Remove the mattress; disassemble before major moves. Lift structural sections, never drag.

PLACEMENT & SUPPORT

Position It Well. Keep It Comfortable.

For dry indoor rooms, place Nolven on a level floor. Leave space for the separate side tables, airflow behind the headboard and cleaning beneath the raised frame.

Important Precautions

- Keep the fabric away from flames, direct heat, damp walls and prolonged strong sunlight.
- Do not allow children to climb the padded headboard, side tables or open drawers.
- Do not alter structural fittings. Stop using loose frame sections or faulty drawer hardware.
