

OWNER'S MANUAL

Soreven Archline Bed Set

A tall arched headboard, recessed wood panel and matching bedside tables define Soreven's architectural look. Correct assembly and simple wood care help preserve the frame, veneer and finish.

Product at a glance

BED SIZES King: 72 in W x 78 in L x 44 in H Queen: 66 in W x 78 in L x 44 in H	CONSTRUCTION Seasoned solid Sheesham structure Plywood + real Sheesham veneer panels
HEADBOARD Tall arched frame Recessed centre panel	SET CONTENTS 1 bed 2 matching bedside tables
SIDE TABLES 24 in W x 18 in D x 25 in H Open shelf + 2 drawers each	FINISH OPTIONS Walnut Brown Matte Black

Before first use

- Unpack each component carefully and keep blades away from finished wood and veneer edges.
- The bed is supplied in separate components. Assembly is required; assembly service is not included.
- Assemble on a clean, level floor and secure all structural fittings before placing the mattress.

Everyday use

- Use a correctly sized mattress; the mattress is not included.
- Do not jump on, drag, or lift the bed by the headboard.

CARE & MAINTENANCE

Care for wood, veneer and hardware

Soreven combines solid Sheesham structure with veneered panel surfaces and fitted bedside hardware. Gentle cleaning and controlled moisture are important for all three.

Arched headboard Dust the curved frame and recessed centre panel with a soft microfiber cloth. Keep moisture out of panel joints.

Wood & veneer For light marks, use a barely damp cloth and dry immediately. Avoid abrasive cleaner, bleach, thinner and excess water.

Side-table tops Use coasters and protect the surface from hot, wet or sharp objects that may mark the finish.

Drawers & handles Pull drawers straight and evenly. Do not force overloaded drawers or use the brass-tone handles as lifting points.

Sun & moisture Keep the set away from damp walls, water sources, strong heat and prolonged direct sunlight.

Moving the bed Disassemble before relocation and lift from structural sections. Never drag the assembled frame.

Care may vary by finish. Follow the guidance confirmed with your Soreven order.

PLACEMENT & SUPPORT

Assemble it well. Use it with confidence.

Soreven is intended for dry indoor residential use. Correct assembly is essential to frame stability, mattress support and long-term performance.

Important precautions

- Complete the full assembly before use and make sure all supplied fittings are seated and tightened correctly.
- Place the bed on a dry, level floor and keep the frame clear of damp walls, heaters and prolonged direct sunlight.
- Do not drill, cut, modify or repair structural parts without written guidance from ROCO.
- If the frame develops unusual movement, looseness or persistent structural noise, stop using it and contact ROCO.
- Incorrect assembly, dragging, misuse or unauthorised modification is not treated as a manufacturing defect.

Warranty guidance

Soreven warranty coverage is component-specific and follows the final order specification.

Qualifying solid Sheesham structural parts and joinery may receive up to 24 months; plywood components and drawer hardware up to 12 months; and Sheesham veneer or ROCO-applied surface finish up to 6 months.

ROCO normally begins with assessment and repair of the affected component, followed by replacement where required under the applicable terms.

Natural grain variation, normal wear, scratches, fading, moisture damage, incorrect assembly, accidental damage, misuse and unauthorised repairs are excluded. Report visible delivery concerns within 48 hours.

ROCO CUSTOMER CARE

Need assistance?

Contact us early if a component arrives damaged, a fitting is missing, or the assembled bed does not sit securely. Clear photos and order details help us assess the concern quickly.

When to contact us

- Report visible transit damage, a wrong component or a major delivery concern within 48 hours.
- Before assembly, contact ROCO if a structural part or supplied fitting appears damaged or incomplete.
- After correct assembly, stop using the bed if it develops unusual movement, persistent noise or a structural concern.

What to share

Please share your order or invoice number, the product name, clear photographs of the full bed and affected component, and a short video where the concern involves movement, noise or drawer operation.
