CARE & MAINTENANCE

Care For The Wood, Drawers & Side Units

Veyran combines broad finished-wood panels, joined bedside sections and moving drawers. Gentle cleaning, even loading and straight drawer travel will help keep it working as intended.

HEADBOARD PANELS	Dust with a soft, dry microfiber cloth. Follow the grain and clear dust from recessed panel joins.
BEDSIDE UNITS	Use coasters; wipe moisture promptly. Do not pull, lift or move the bed by its attached bedside sections.
DRAWER MOVEMENT	Keep the path free from loose bedding and dust. Open each drawer straight; stop if it repeatedly catches.
DRAWER LOADING	Distribute folded bedding and light items evenly. Avoid concentrated heavy loads or pressure on drawer fronts.
WOOD FINISH	Use a barely damp cloth for marks, then dry at once. Avoid excess water, solvents, bleach and abrasives.
JOINED SECTIONS	Check accessible connections after the first few weeks; gently tighten if needed without overtightening.
RELOCATION	Empty the storage, remove the mattress and move the bed with several people, lifting from the lower frame.

PLACEMENT & SUPPORT

Place It Carefully. Use It With Ease.

Veyran is intended for dry indoor residential use. Allow space for the full headboard width, everyday circulation and opening the under-bed drawers.

Important Precautions

- Leave airflow behind the headboard; avoid damp walls, water, heaters, flames and prolonged direct sunlight.
- Keep drawer access clear. Do not let children climb on the headboard, bedside units or open drawers.
- Do not drill, refinish or arrange structural repairs without ROCO guidance. Stop using loose sections or drawers that repeatedly catch.

Warranty Guidance

Coverage follows the construction and written terms confirmed with your order under the ROCO Confidence Warranty.

STRUCTURE	A qualifying principal solid-wood frame may receive up to 24 months. Mixed or engineered structural assemblies generally receive 12 months.
HARDWARE	Eligible drawer slides, handles and fitted functional hardware may be covered for up to 12 months.
FINISH	Qualifying manufacturing-related peeling, lifting or adhesion defects in veneer and finish may be covered for up to 6 months.

Normal wear, scratches, fading, moisture damage, overloaded or forced drawers, pests and unauthorised modifications are excluded. Natural wood variation is not automatically a defect.

ROCO CUSTOMER CARE

Need Assistance?

Contact ROCO promptly if the bed, integrated bedside units or drawers do not look, align or move as expected. Photos and short videos help us understand the concern.

When To Contact Us

- Report visible transit damage, an incorrect item or a missing major component within 48 hours of delivery.
- Report assembly, headboard alignment, bedside-unit fitting or missing-hardware concerns within 7 days.
- If a drawer catches, becomes noisy, a joined section loosens or an unexpected finish defect appears, contact ROCO during the applicable coverage period.

What To Share

Provide your order or invoice number, product name, size and finish, a photo of the complete bed and close-ups of the affected area. Include a short video for drawer, movement or alignment concerns.
