OWNER'S MANUAL

Avelis Bent Glass Coffee Table

A clear bent-glass coffee table shaped into one open, U-shaped profile. Its smooth curved sides support the rectangular top without a separate wooden or metal frame.

Clear Glass shown

Product at a glance

OVERALL DIMENSIONS 47.24 in L × 23.62 in W × 15.75 in H 120 × 60 × 40 cm	**CONSTRUCTION** Clear bent toughened safety glass Single-piece frameless form
STANDARD FINISH Clear / transparent glass Smoke or Bronze by approved order	**DELIVERY** Supplied as one finished table No customer assembly required

Before first use

- Inspect the tabletop, both curves, exposed edges and floor-contact points before use. Report visible delivery damage within **48 hours**.
- Place both glass supports evenly on a level, dry surface. Use suitable protective pads if supplied.
- Have two adults lift and position Avelis together; never lift it by one corner or drag it.

Everyday use

- Set books, trays and drinks down gently; use coasters under cups and rough-bottomed items.
- Do not sit, stand or place concentrated heavy loads on the tabletop.
- Avoid hot cookware, sharp impact and sudden temperature changes.

CARE & MAINTENANCE

Keep the glass clear. Protect every edge.

Avelis leaves its surfaces and curved supports in full view. Simple cleaning and careful handling keep the transparent finish clear and protect the bends from accidental damage.

Daily dusting	Use a clean, soft microfiber cloth to lift fine dust without grinding it across the glass.
Fingerprints & marks	Apply mild glass cleaner to a cloth, not directly onto the table, then buff with a separate lint-free cloth.
Curved corners	Keep hard objects away from both bends and exposed edges; concentrated edge impacts can cause serious damage.
Hot items	Use coasters or mats beneath hot cups, dishes and candles. Never place hot cookware directly on the glass.
Decor & loads	Lower heavier objects gently and distribute weight. The table is not designed for sitting or climbing.
Floor contact	Keep the two glass side supports on a stable, even floor; check approved protective pads periodically.
Cleaning products	Avoid abrasive pads, scouring powders, metal scrapers, bleach, acetone and aggressive chemicals.
Moving Avelis	Lift upright with two adults, supporting the body from both sides. Do not drag or slide the glass.

Important: Toughened glass is not scratch-proof or break-proof. If a crack, chip or unexpected movement appears, stop using Avelis and contact ROCO before attempting any repair.

PLACEMENT & SUPPORT

Keep it level.
Protect the bend.

Avelis is intended for indoor living rooms. Both glass supports need the same firm, level surface, with space around the table to protect its exposed corners.

Placement & safe use

- Allow for the 120 × 60 cm footprint and 40 cm height. Leave comfortable walking space beside the sofa.
- Do not place one side on a thick rug and the other on bare floor; uneven support can make the table unstable.
- Keep away from doors, narrow passages, heaters and areas where the glass is likely to be struck.
- Never sit, stand, climb or lean heavily on the tabletop; no safe load limit should be assumed without a verified rating.
- Do not drill, cut, grind, bond or attempt to modify toughened glass after fabrication.
- Stop using the table if any edge chips, cracks, unusual rocking or visible damage develops.

Warranty guidance

Glass inspection: Report chips, cracks, breakage, major surface defects or incorrect items visible at delivery within **48 hours**, with photographs or video.

Initial placement: Report levelling, alignment or initial setup concerns within **7 days**, where applicable.

Further coverage: Any longer manufacturing or workmanship warranty applies only where it is expressly confirmed in your quotation, invoice or written order terms. ROCO assesses qualifying concerns under those terms.

Exclusions: Accidental knocks, scratches, thermal shock, dragging, concentrated loading, misuse and unauthorized alterations are not normally covered.

ROCO CUSTOMER CARE

Need assistance?

If Avelis arrives damaged, does not sit securely on a level floor or develops an unusual issue during ordinary use, contact ROCO promptly. Clear photographs help us assess glass-related concerns.

When to contact us

- Report visible transit damage, missing or incorrect items and glass chips or cracks within **48 hours**.
- Report a new levelling or setup concern within **7 days**, where applicable.
- Stop using Avelis if the glass cracks, a corner chips or the table becomes unstable.
- Do not arrange third-party grinding, bonding or structural repair before ROCO reviews the issue.

What to share

Send your order or invoice number, selected glass finish, delivery date and a brief description. Include one photograph of the full table and clear close-ups of the affected area; a short video helps show rocking or instability.

How we can help

Our team may request more photographs or arrange an assessment. Keep the item and protective packaging safe, and do not return the table without instructions.
