OWNER'S MANUAL

Elvane Tray Coffee Table

A low, round wooden coffee table with a raised tray-style rim and a recessed pedestal. Elvane offers a broad surface while keeping its profile close to the floor.

Light Wood shown

Product at a glance

OVERALL DIMENSIONS 43.3 in diameter × 10.6 in high 110 cm diameter × 27 cm high	**TABLE DESIGN** Raised-rim tray-style tabletop Recessed circular pedestal
FINISH OPTIONS Light Wood shown Dark Brown or Black available	**SET CONTENTS** One Elvane coffee table No loose serving tray included

Before first use

- Inspect the tabletop, raised rim, wood finish and pedestal on delivery. Report visible damage within **48 hours**.
- Place Elvane on a dry, level floor so the full pedestal sits securely without rocking.
- The tray-style top is part of the table. Do not pull on the rim or try to lift it off as a separate tray.

Everyday use

- Use coasters and set drinks or ornaments down gently; do not leave spills inside the raised rim.
- Do not sit, stand or put concentrated heavy weight on the tabletop.

CARE & MAINTENANCE

Respect the grain.
Keep the rim clean.

Elvane sits low enough for everyday cups, books and small objects. A little care around its shallow tray edge helps protect the wood finish and keep the circular surface looking its best.

Daily dusting	Wipe with a soft, dry microfiber cloth, following the visible wood grain where possible.
Raised rim	Run a soft cloth along the inner circular edge where dust and crumbs collect.
Spills & water	Blot spills immediately, especially near the rim; use a barely damp cloth and dry fully.
Cups & hot items	Use coasters or mats beneath cups and dishes. Avoid direct contact with hot cookware.
Wood finish	Keep perfume, solvents, harsh cleaners, abrasive pads and unapproved polish off the surface.
Light & moisture	Avoid prolonged direct sunlight, heaters and damp floors. Natural wood can change tone over time.
Moving Elvane	Lift with two adults supporting the underside and pedestal; never pull by the rim or drag it.

Important: If the rim loosens, the tabletop rocks or the wood cracks unexpectedly, stop using the table and contact ROCO. Avoid home repairs to structural joints.

PLACEMENT & SUPPORT

Find its place.
Keep it steady.

At just 27 cm high, Elvane suits relaxed seating and open floor arrangements. Allow enough room to walk past its 110 cm circular top without knocking the raised edge.

Placement & safe use

- Check the 110 cm diameter against your sofa and walking space; its 27 cm height is lower than many conventional coffee tables.
- Place the full recessed pedestal on an even, dry floor. Avoid uneven rug edges or floor transitions that cause rocking.
- Keep the table clear of crowded passages and direct heat. Do not sit, stand or lean heavily on the raised rim.
- Distribute everyday items across the surface and avoid heavy objects near the outer edge.
- Do not detach the top, dismantle the pedestal or modify the joints without ROCO guidance.

Warranty guidance

Delivery inspection: Report visible cracks, chips, transit marks, incorrect finish or missing items within **48 hours**, with photographs.

Initial placement: Report newly noticed levelling or setup problems within **7 days**, where applicable.

Manufacturing coverage: The applicable structural and wood-finish terms depend on the confirmed construction and your ROCO invoice or order confirmation.

Exclusions: Normal grain variation, ordinary wear, scratches, stains, moisture, heat damage, dragging and unauthorised repairs are not covered.

ROCO CUSTOMER CARE

Need assistance?

If your Elvane table arrives damaged, develops a loose rim or no longer rests steadily on a level floor, contact ROCO. Clear photographs help our team assess the concern.

When to contact us

- Report visible delivery damage, incorrect finishes or missing items within **48 hours**.
- Report a new levelling or setup concern within **7 days**, where applicable.
- Stop using Elvane if the rim separates, the pedestal becomes unstable or a crack develops.
- Ask ROCO before attempting to refinish, dismantle or repair the table.

What to share

Share the order or invoice number, selected finish, delivery date and a brief description of the issue. Include a full-table photograph and clear close-ups; a short video helps show any wobble.

How we can help

ROCO may request additional photos or arrange an assessment. Keep any protective packaging and follow our team's instructions before sending an item for service.
