CARE & MAINTENANCE

Care For Wood, Upholstery & Storage

Varello combines a wooden frame, veneered panels, a padded PU headboard and fitted bedside storage. Care for each surface according to its material.

WOODEN FRAME	Dust with a soft cloth. Wipe up spills promptly and dry the surface fully.
VENEERED PANELS	Use a lightly damp cloth for marks. Avoid abrasive cleaners and standing water.
PU HEADBOARD	Gently wipe with a soft cloth. Keep harsh solvents, oils and direct heat away.
DRAWERS & SHELVES	Keep drawer runners clear; do not overload or force drawers or narrow shelves.
LIGHT & HEAT	Protect all surfaces from damp walls, heaters and prolonged direct sunlight.
MOVING THE SET	Remove the mattress; have fitted bedside units detached before lifting sections.

PLACEMENT & SUPPORT

Fit It Together. Keep It Secure.

Varello is intended for dry indoor residential use. Its two bedside units are attached to the central bed during installation, requiring careful alignment and a level floor.

Placement & Assembly

- Bed-frame references: King 72 x 78 x 46 in; Queen 66 x 78 x 46 in. Both exclude the bedside units.
- Have ROCO or an approved installer join both bedside units using the correct supplied fittings.
- Confirm the finished overall width, mattress fit, frame supports and drawer clearance before use.
- Avoid leaning on the bedside extensions. Stop use if the bed or fitted sections feel unstable.

Warranty Guidance

Qualifying manufacturing defects are covered by component: Sheesham frame up to 24 months; bedside units, drawer hardware and Molty foam up to 12 months; PU leatherette, veneer and finish up to 6 months.

Normal wear, foam softening, scratches, stains, fading, moisture damage, misuse and unauthorised repairs are excluded. The final order and written warranty terms apply.
